- Belgian Waffles & Toffee Sauce, Vanilla Ice Cream

## **ALPHABET GAME (AGES 3 - 8)**

As a group, choose a category, such as animals, countries, singers, or "people our family knows." One family member starts the game by naming a person/thing from that category that starts with the letter "A." Then the next person names a person/thing that starts with the letter "B," the next person finds something for the letter "C," and so on

## **LIST GAME (AGES 3 - 8)**

Think of 5 things that "belong" to something. For example, a banana, a pair of shoes, a Harry Potter book, a pile of paperclips, and a box of flooring. Then have your family guess what/who these things belong to (answer: things in my car).

With little kids, you can just ask them outright for a list of things in a category (example: name three things in your bed).

## **CREATE A STORY (ALL AGES)**

One person starts a story with one sentence. They can use a traditional story format ("Once upon a time, there was a huge bear...") or something completely original ("A woman carrying a large cake was walking down the street..."). Go around the table, and have each person add a sentence to the story. If the kids are old enough, pass a piece of paper around, and have everyone write their sentence down.

## **TWO TRUTHS AND A TALL TALE (ALL AGES)**

Have each family member think of two true facts about themselves, and one made-up fact (a "tall tale"). Go around the table and share your three items. The other family members have to guess which one isn't true!

## **THINGS ARE DIFFERENT (ALL AGES)**

Have one person close their eyes. All the other players remove something from the table. A napkin, salt shaker, fork etc. The player then opens their eyes and must guess what each person removed. The winner is the player who removes the items that can't be guessed.
